3 Days Training on Process Monitoring & Sustainability Assessment & Performance Dashboard Development Supervision

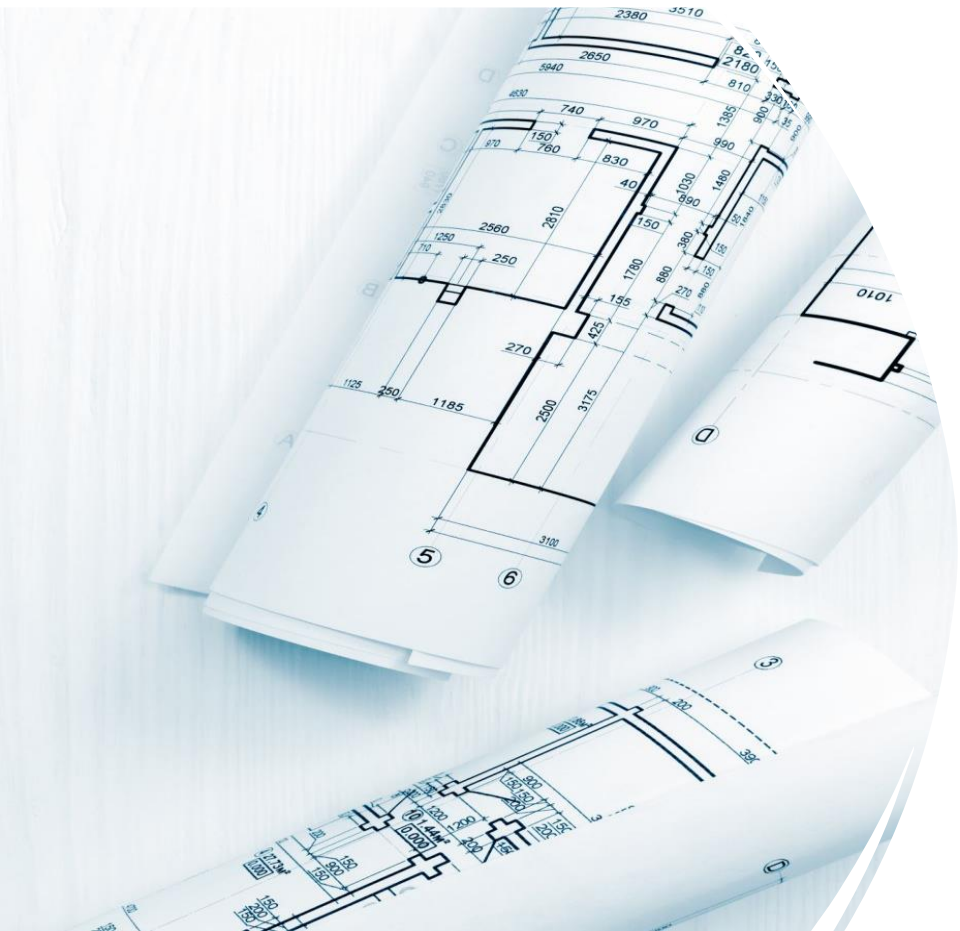

AP Ir. Dr.-Ing. Mohamad Rizza Othman

AP Ts. Dr. Mohd Yusri bin Mohd Yunus

CC-SISPI | UMP Paya Besar

9 – 11 January 2023

Email: rizza@ump.edu.my

Course Information

- This program involves training and supervision of dashboard development project within BPC. The 3 days training will focus on process monitoring, ANN, HM & sustainability assessment. This course is suitable for those who involve in ensuring plant performance and productivity which include managers, engineers (process, mechanical, electrical and instrument disciplines) and for those who are in operation and quality. The course will integrate applied theory with practical exercises.
- Link to the course materials will be provided via MS Teams. Participants will be notified once added to the group.
- Participants need to bring their own laptop the necessary software. Please inform the organizer if you have any difficulties.

Tentative

Date	Topic
9 January 2023 (Mon)	
0830 – 1230	MODULE 1 : Data Analytics & Smart Processing
1230 – 1400	Break
1400 – 1700	MODULE 2 : Overview of Process Monitoring & Statistical Process Control
10 January 2023 (Tue)	
0830 – 1230	MODULE 3 : Multivariate Analysis & MSPM System
1230 – 1400	Break
1400 – 1700	MODULE 4 : Sustainability and its Assessment
11 January 2023 (Wed)	
0830 – 1230	MODULE 5 : ANN Modelling & Application Part 1
1230 – 1400	Break
1400 – 1700	MODULE 5 : ANN Modelling & Application Part 2
